

Continuation of Substance of Interview including description of the general nature of what was discussed: The claims had been held not to be allowable in the advisory action of 11 March 2004 because the recommended daily amounts were not defined in the specification. However, it is now noted that these levels are defined for vitamin C on p. 9, line 16, and for vitamin E on p. 7, line 31. Thus, if an updated search finds the claims to be free of the art they will be allowed..
